

## 10' x 10' Celebration®/Catenary Celebration® Erection Instructions

- Step 1.** Inventory all components. (All Pipes are labeled for easy identification).
- Step 2.** Layout frame for erection.
- Step 3.** Attach S-10's to corner and side assemblies inserting pins from the outside pointing in. Allow loop to hang on bottom. Continue assembling perimeter.
- Step 4. And 5.** After perimeter is assembled, insert two C-10's onto the corners and pin. Place 4-way hub on the end of the C-10's and pin. Pin the remaining two C-10's onto the 4-way and then attach the bottom of the C-10's to the remaining corners.
- Step 6.** Pull tent top over frame.
- Step 7.** Celebration: Pull corners of tent top over frame. Catenary Celebration: in high winds, pin strap in corners of top through bottom of corner fitting to hold on frame while lifting.
- Step 8.** Celebration: Lift one side of tent and insert the uprights onto the fittings and pin. Catenary Celebration: Simply pull pin out when lifting and insert leg and re-pin strap.
- Step 9.** Lift remaining side and insert the uprights onto the fittings.
- Step 10.** Pin all uprights.
- Step 11.** Celebration: Fasten all buckles on inside of tent to frame. Pull buckles evenly until top is tight to frame. Catenary Celebration: Connect ratchets to D-Rings at bottom of each catenary.
- Step 12.** Celebration: Screw eye and attached ratchet into corner and velcro closed the split corner. Catenary Celebration: Connect ratchets to stakes provided or pin ring end of ratchet to pin at bottom of upright.
- Step 13.** Drive stakes until 6" of stake is left protruding. Placement of stake per diagram. Secure tent to stakes with ratchets. Catenary Celebration: Tighten ratchets connect either to stake or bottom of upright until top fabric is tight.
